

EFFECTIVE

April 1, 2017.

Subject(s)**Adult Service Manual (ASM) 126, MI Health Link Program**

If an existing Integrated Care Organizations (ICO) enrollee elects hospice services, the enrollee may remain enrolled in the demonstration and will only be disenrolled at the enrollee's request. Hospice services will be covered through Fee-for-Service Medicare while all other services will continue to be covered through MI Health Link.

Services for long-term supports and services including non-medical transportation

Eligible individuals who do not voluntarily enroll in the program receive a notification letter at least 60 days prior to the enrollment effective date informing them they will be passively enrolled in an assigned ICO. Individuals may **cancel passive enrollment** by calling the enrollment broker contracted by the state for the Medicaid managed care program, as indicated in the notification letter.

Level of Care 07 - Community

Resident of the community and not participating in the MI Health Link HCBS waiver program. Could be receiving personal care services but does not reside in long-term care. MI Health Link shares this LOC with the home help program, adult community placement, Medicaid Health Plans, and PACE. Use the provider ID associated with the LOC to identify which program a client is enrolled in (all ICO provider ID numbers begin with 28).

Reason: The term "home help provider" has been changed to "personal care provider." The Level of Care 07 - Community and non-medical transportation has been added.
